

# Create your own Zebra Finger Puppet

oven hardening modelling material

## WHAT YOU NEED:

- FIMO - assorted colours
- Craft knife

## SKILLOMETER

BEGINNER

SKILLED

8+ adult supervision required

**1** Flatten some white FIMO and cut into a semi circle. Wrap loosely around your finger and smooth the edges together to make a cone. Add a second cone and smooth the join to make the head and neck.

**2** Press a black blob onto the front of the head to make the muzzle. Roll out some long, thin, black strands and wrap around the body in a V-shape down towards the front of the zebra.

**3** Flatten a black roll and make a row of cuts along one side. Bend into a curve, separating out the cuts. Press on to the back of the head to make a mane.

**4** Flatten two white balls into discs and pinch to make an ear shape. Press onto either side of the head. Finish your zebra by adding two small black blobs for eyes. You can make nostrils and a smile using a cocktail stick. Bake according to instructions and allow to cool.
